

Criterion	What to Assess	Scale
Retrieval relevance	Did the system pull the right JD sections?	Yes / Partial / No
Skill identification accuracy	Are the identified skills/gaps actually correct?	Count correct vs. incorrect
Actionability	Are recommendations specific and useful?	1-5
Faithfulness	Does output stick to document content?	Faithful / Partial / Hallucinated

Job Description	Analysis	Retrieval Relevance (Yes/Partial/No)	Skill identification accuracy (Count correct vs incorrect)	Actionability (1-5)	Faithfulness (Faithful/Partial/Hallucinated)
JD_01 - Sales Ops Analyst	Skill Gap Report	Yes, it acted on the proper section.	6/10 - 4 of the missing ones are soft skills	1 - Only the "Gain Experience with AS 400" was correct. The other 4 are soft skills and the recommendations are not helpful.	Partial - was too strict, so it does not analyze the soft skills associated with experience.
JD_01 - Sales Ops Analyst	Keyword Alignment	Partial, did not seem to retrieve from education section in resume.	14 correct, 1 incorrect - One was "recent graduates" which is more so a description of the job's target market, not a skillset.	4 - describes no matches, but some of the no matches are wrong	Partial - once again, missing education section, so it said no match

JD_01 - Sales Ops Analyst	Fit Summary	Yes	All listed are correct	5 - provides strong feedback of strengths, and gap regarding customer service application in manufacturing environment	Faithful - no hallucinations or assumptions, just well-cited inferences from resume
JD_02 - Revenue Ops Associate	Skill Gap Report	Yes, it acted on the proper section	10/10 skills are correct	2 - Experience with AI tools and specific tools list is relevant. However, educational background and mindset comments aren't actionable	Faithful - no assumptions made
JD_02 - Revenue Ops Associate	Keyword Alignment	Yes, it acted on the proper section	15 correct, 15 incorrect - many of the incorrect skills were pulled from the recruitment notices section of the job description (i.e. "Respond to candidates in a timely manner"	3 - All of the correct skills are actionable, however, irrelevant skills are listed or there is repeated, vague soft skills that are listed as no match like "Maintain agility"	Faithful - no assumptions made
JD_02 - Revenue Ops Associate	Fit Summary	Yes, it acted on the proper section	All skills listed are correct	5 - provides strong experience, and makes connections	Faithful - no assumptions made.

				between CRM and automation tools, with specific feedback for enhancement of AI tool usage.	
JD_3 - CRM Ops Associate	Skill Gap Report	Yes, it acted on the proper section	10/10 correct - very specific list of skills that are hard skills and categorized properly	5 - all insights are actionable, have to do with direct hard skills missing from the job match, and separates hard analytical skills from industry experience recommendations	Faithful - no assumptions made
JD_3 - CRM Ops Associate	Keyword Alignment	Yes, it acted on the proper section	23 correct, 2 incorrect with regards to education section not matching and willingness to work long hours is not a skill	3 - lots of matching from education skills and soft skills are missed, such as Bachelor's degree listed as no match and strategic thinking being no match	Faithful - no assumptions made
JD_3 - CRM Ops Associate	Fit Summary	Yes, it acted on the right section.	All listed skills are correct.	5 - The organization of skills between hard skills, industry experience,	Faithful - no assumptions made.

				and soft skills is well organized. Connections from resume are well-made.
